📇 ABOUT ME

With a strong foundation in engineering concepts and a deep interest in artificial intelligence, I am motivated to study and contribute to the ever-changing AI field. I am eager to leverage my AI expertise to contribute meaningfully to real-world challenges

📁 PROJECTS

Developed Hotel Booking Website based on reviews using MERN Stack
Developed a comprehensive hotel booking website that centered around user reviews, leveraging the dynamic capabilities of the MERN(MongoDB, Express.js, React, Node.js) Stack.

AIP Duty Scheduling App for Administrator
(University Project)
Designed and built an Android application for NIIT University's AIP process.
